Zero-dynamics attack, unstable zero (z0 = 1.02), encrypted control, AERO2 parameters
no attack (initial transient only)
window test: ALARM (Z = 67)
matched zero-dynamics attack
window test: no alarm (Z = 11)
mismatched attack (guess = 0.5 x true state)
window test: ALARM (Z = 112)
output y
applied input u
encrypted
residual (plaintext)
hidden state x2
